

1-K-love is a encourageing and very much needed for me...with the music that is out there...which is mostly demonic and violent, I need God's words in music which is worship through songs to combat the evil.

2-If you displace this, you will be siding with the enemy, satan and his evil workers that do not want people to know God's truth, love, presence...if you take this station away, it is like taking God's presence out of the world...imagine a world without love.

3-I believe that this station does indeed meet the publics intrest...who are we to judge or question whom God will cause to listen to goodness and His words of love and grace instead of hate and aptathy.
